Welcome to the Virtual 2021 AWHONN Convention Platform
Let’s get started!

Log into the Website
Welcome to the virtual 2021 AWHONN Convention Platform. Access the platform by logging into the website using the email address you used to register for the Convention and entering your password, which is two zeros followed by your registration ID (i.e. 001234), provided in your registration confirmation email. Chrome and Microsoft Edge are the preferred and recommended browsers to view online events. Here are some tips to ensure a smooth logon.

- Be sure to disconnect from any VPNs (e.g., Citrix, Aruba, etc.).
- Connect using a late-model computer or tablet with built-in speakers; while smart phones may work, the experience is not ideal.
- Please ensure that your device is connected to a stable internet connection.
- If you are given the ability to access the platform early, take advantage of the time to login before the day of the event to make sure you can connect properly. This prepares you for a more successful experience.

Enter the email address you used to register for the Convention
Enter your password. Your password is 00 followed by your registration ID, with no spaces. Your registration ID was provided to you in your registration confirmation email.
The Convention Lobby
From the Lobby, you can get a snapshot of the main interest areas of the Convention. Jump to different sections of the Convention by clicking on the corresponding area. Clicking on Lobby, located on the top navigation bar, will get you back to this Landing Page from anywhere on the site. Be sure to click on the AWHONN Daily Welcome Video for updates and information.

Please take some time to review the platform Code of Conduct, which outlines attendee expectations and best practices for online engagement.

Top Bar Navigation
Quickly jump to anywhere on the site by using the Top Bar navigation, using the headings, and corresponding drop-down menus. You can also update your attendee profile by clicking on your name on the top right of the screen.
System Check
To make the most of your Convention experience, take some time to run a system check. Just click on the dropdown menu by your profile and run the check. If you have technical issues, click on the “Need help? Get Support” button located on the top left of the screen, above the top navigation bar.

Updating Your Profile
Your attendee profile allows you to update your contact information, share your areas of expertise and update your password.
Updating Your Preferences

Within your profile, you can update your Preferences. This area determines which types of notifications you’d like to receive, as well as hide your profile if you choose. **Important:** Keeping your profile public allows for other attendees to interact with you throughout the Convention. Be sure to hit save after making your changes.

Navigating the Program

**Quick Tip!**

There are three viewing options within the platform:

- **Standard Mode** is how the page looks when you first enter the event. Here, you will be able to see and engage in the chat/Q+A panel, as well as polls and surveys that will appear below the video player window.
- **Theater Mode** enables you to enlarge the video player window and still engage in the chat, but polls or surveys won’t be visible for your participation.
- **Full Screen** (icon in the window) allows for the biggest video player window but disables your participation in the chat/Q+A panel and any polls or surveys that pop up during the presentation.
Agenda
From the Convention homepage or Program tab, you can reach the page with a view each day’s events. If you want to create your personal schedule, click on the + icon to the right of the session title. This will save you a seat in the session. For session details, click on the session title. You can view the agenda in different formats, including as an agenda or in calendar view. You can also export and print the agenda by using the correspond tabs.

Sunday, October 10
9:30 AM EDT

SYMP01 - Water Wipes Symposium: Diaper Dermatitis in Preterm and Full-Term Infants
- 9:30 AM - 10:30 AM EDT

11:00 AM EDT

GS1 - General Session one
- Cyndy Krenning, MS, RNC-OB, C-CEM
- Saint Joseph Hospital
- 11:00 AM - 12:30 PM EDT

1:00 PM EDT
**Live Session Pages**

Each Session Detail Page includes information about the session, speaker, and a link to your evaluation for CNE credit. You can add each separate session to your personal Google, Outlook, Yahoo, or other calendar. Additionally, in this area, you chat with other attendees, ask questions of the speaker, and add notes to the session. A collection of your notes can be found under “My Notes” on your profile dropdown.

**On-Demand Sessions**

On-Demand education sessions are listed on the On-Demand Education page, available under the Program tab.

Once you click on a session, you will be taken to a Session Details Page. The video for the session will be included on this page once the platform is live. This page has similar functionality to a live session details page, in terms of the session and speaker descriptions, as well as evaluation for nursing contact hours.
People and Connect
Engage with fellow attendees through networking and demonstrations, the social feed, and direct messages.

Attendees and Speakers
Find your fellow attendee goers and speakers under the “People” tab. Find out more about your colleagues and speakers and send messages directly to them by clicking on their name.

Networking & Dems
During the Convention, we will be hosting product demonstrations and conducting roundtables, where you can interact in real-time. This page will include all the zoom links required to join the conversations.

Monday, OCT 11

9:25 AM - 10:05 AM  AWHONN Product Demonstration: Critical Care Obstetrics Education
Susan Hala, DNP, RNC-OB, C-EFM

Have Questions?
If you have technical issues or need any assistance during the event, there are three ways to contact us for support during the event:

- Click on the HELP icon in the lower right corner of your browser window and use that panel for live chat or email assistance.
- Click on SUPPORT in the top navigation menu and use those options for help.
- Click on “NEED HELP? GET SUPPORT” in the uppermost banner of your browser window. You’ll get a pop-up screen in the lower right and can contact us via chat or email.
